

## **POLICY FOR HOMEWORK**

Parents of children at Lapage Primary School and Nursery consider homework as essential and consider regularity of homework as a measure of how high the expectation is for children. Although opinions on the merit of homework may vary it is important to build a positive view about high expectations amongst all stakeholders to maintain a positive working relationship.

Homework must be manageable (differentiated to allow independent work) and support key skills that children need to learn. It is not proposed that homework adds to teacher workload (i.e. excessive marking).
